PROFILE

I am a recent graduate , driven by a genuine interest in building robust and user-friendly web applications. During my academic journey, I have gained proficiency in both frontend and backend technologies, including JavaScript, React.js, Node.js, and various databases.
My approach to development is not only technical but also user-centric. I believe in creating applications that not only function seamlessly but also provide an enjoyable experience for the end user. Through various academic projects, I have honed my skills in crafting responsive and visually appealing interfaces.
I am excited about the opportunity to contribute my skills and learn from experienced professionals in a challenging and growth-oriented environment. My goal is to become a valuable member of a team that values innovation, collaboration, and continuous improvement.
